To use this Template. Cut out the center of the template, and place over hub. Line up bolts with the grey "bolt circles". The best fit will be your bolt pattern. For example, a 5 bolt hub that lines up with the 4 3/4" "bolt circles" (B) will be a 5 on 4 3/4" bolt pattern.

In order to print to the correct dimensions, you must ensure that the "Page Scaling" Option in the print dialog box is set to "None". Here is a rule you can measure to make sure you have the right print size.

To measure 4, 6 and 8 lug, take your measurement from the middle of two wheel bolts directly across from one another. To measure 5 lug, take your measurement from the BACK of a wheel bolt to the CENTER of the second wheel bolt.
